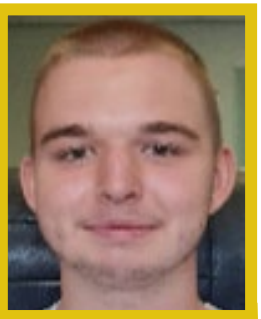
This apprenticeship was made possible by a levy transfer from Hudson Contract

Apprentice: Harrison Cusworth **Age:** 16
Location: Wakefield **Host:** R.H. Fullwood & Co Ltd
College: Leeds College of Building **Started:** August 2021



Harrison joined host R.H Fullwood in August 2021, where he is doing a Level 2 Bricklayer Apprenticeship. R.H. Fullwood host a wide variety of apprentices supported by EN:Able Futures and fully support apprenticeships throughout their business.

Harrison has been working on snagging, building parting walls, gable ends and fitting electric boxes.

He has also been working on general brick and block work and building different types of walls.

Guy Fullwood, Director, R.H Fullwood & Co Ltd

""Harrison is progressing well with work and college as is expected.

"As a SME we have found the flexibility while working with EN:Able Fututres to be perfect for our organisation. The Support given from them includes screening of candidates before they are presented to ourselves for consideration, and assisting with getting apprentices ready for the workplace environment.

"During the apprenticeship we receive regular updates and support is provided to apprentices and ourselves regarding their performance. We also receive advice and assistance with producing the evidence that is required for qualification purposes.

Julie Deeley, Director or Operations, EN:Able Futures

"By sharing their apprenticeship levy with EN:Able Futures, Hudson Contract have helped Harrison take on this apprenticeship that has set him on a great career path.

"Nationally the number of apprenticeship starts are falling and EN:Able Futures are working hard to create as many new apprenticeships in construction, housing and civil engineering as possible, helping to generate new career opportunities that help people achieve their aspirations, and set solid foundations for the future of the construction industry."
